I'm a passionate multi-disciplinary creative with a strong belief in collaboration and a drive to innovate entertainment, education and experiences. I use the tools of design thinking, filmmaking, photography, & graphic design, along with a list of diverse experiences to produce ideas that are engaging, sustainable and grounded in culture. Disciplined and tuned-in, I'm constantly seeking to learn how I can help to bring new ideas into the world that bring both joy and positive social impact.

ViacomCBS Networks International (VCNI)

International Social Responsibility

Creative & Post-production Intern (June 2019 – December 2020)

Conceiving, producing and editing digital content primarily for Generation Change and MTV Breaks while helping to support and advise VCNI brand teams with social impact content. My voluntary roles within Fusion (ERG celebrating cultural diversity) and position on two race & equity taskforces saw me help VCNI and its brand's efforts to become more inclusive and equitable. I also supported the MTV Staying Alive Foundation in day-to-day creative tasks and larger fundraising activities.

- Editing content and preparing assets for linear broadcast & international digital distribution
- Event production for MTV Breaks at EMA 2019 in Seville
- Researching and writing creative briefs and strategies
- Videography and photography & graphic design (digital & print)
- MTV Staying Alive Five Peaks Challenge
- Producing internal events and activities
- Logging media and music licensing information
